

# Noyes Property Project:

## "WITRB" Question

- Question & Background research (Oct/Nov)
- Proposal (Dec)
- Data collection (Apr/May)
- Analysis & final report (June)

## Good things to study:

- Soil
  - Soil organisms
  - Soil water quality
- Plants
- Lichens
- Insects / Invertebrates

Avoid:

- Mammals
- Birds

Consider:

- Seasonal patterns
- Logistical issues/practical
- Long-term time interval

## Wed: Recon mission:

1. Find 4 different habitats  
(look for different plants &  
soil conditions)
2. Describe (in each habitat):
  - the plants you see (list?)
  - soil conditions
  - ★ → 2-3 potential interactions

STAY AWAY FROM:

~~Poison Oak~~

~~Piles of brush~~
