

Test over soil ~ around Wed. 4/18

WITRB project ~ 4/26

Soil nutrients today + Friday

Texture
Moisture
Nutrients
Particle Sizes

Soil nutrient activity:

- Looks at how soils absorb (filter) nutrients or reject them
- Investigate how different soil textures (different amounts of particle sizes) influence soil nutrient filtering

TODAY: Collect two soil samples

→ Collect small amounts in plastic bags

leave out
sticks, rocks,
bark, plants,
etc.

- One sample from below the bridge close to the creek
- Second sample from the ash swale

→ Put samples in labelled petri dishes

- Your name + up to 2 partners
- Location (creek or forest)
