

If it's on the SmartBoard, it goes in your notebook!

We let you use notes on tests!

Your notes will be a reference for what to do & how to do it
(we won't tell you these things twice)

If something is written on the dry erase board - we'll let you know if you need to write it down

What to do when you don't know what to do!

1. Check the task list for the day
2. If you need to, bring your task list to a teacher and ask for help
3. Check your notes if you don't know how to do something (ask for help if you need us to explain the notes)
- * 4. You should NEVER be standing, sitting, talking, or working on other class assignments unless you've asked a teacher first

TASK LIST:

1. Complete distance/ # rotations calculations, show a teacher, take a picture & turn in to Showbie
2. Figure out how big your wheel needs to be! (HARD) - verify with a teacher
3. Create a circle in Illustrator that is the correct size - include your name. Turn in to Showbie. (Name your file FIRST-LAST.AI)
4. Pick a partner/set of calculations & let a teacher know
5. Modify your circle to add your partner's name in the middle & radius (with units)
6. Copy your Illustrator file to a thumb drive & bring to the laser engraver
