

Plant Portfolio

Field Biology

Using blank sheets of 8.5 x 11 inch paper, folded in half and stapled together, create a plant portfolio. On each page of your portfolio, create a space for the following information:

- a. The plant's common name
- b. The plant's scientific name
- c. One or two sketches of the plant showing **lots of detail**
- d. A description of the plant's appearance
- e. Interesting ecological / scientific facts about the plant. You **must** include whether it is native or non-native. Other interesting areas to potentially research are type of soil the plant needs, amount of rain or sun required, shade tolerance, or fire tolerance.

Work individually on this assignment. Some of the information you need will be discussed in class; time will be provided for you to do internet research to complete the rest of the sections of your portfolio.

A great resource for information about these plants is the USDA Plant Database: <http://plants.usda.gov/>. Another great site is the OSU Horticulture Department: <http://oregonstate.edu/dept/ldplants/>.

Common Name	Scientific Name	Part to Sketch
Salal	<i>Gaultheria shallon</i>	<i>Leaf</i>
Vine Maple	<i>Acer circinatum</i>	<i>Leaf</i>
Big Leaf Maple	<i>Acer macrophyllum</i>	<i>Leaf</i>
White Alder	<i>Alnus rhombifolia</i>	<i>Leaf</i>
Pacific Dogwood	<i>Cornus nuttallii</i>	<i>Leaf</i>
Blue Ryegrass	<i>Elymus glaucus</i>	<i>Seed head</i>
Oregon Ash	<i>Fraxinus latifolia</i>	<i>Leaf</i>
Cow Parsnip	<i>Heracleum lanatum</i>	<i>Entire plant</i>
Garry Oak or Oregon White Oak	<i>Quercus garryana</i>	<i>Leaf</i>
Osoberry	<i>Oemleria cerasiformis</i>	<i>Leaf</i>
Poison Oak	<i>Rhus diversiloba</i> or <i>Toxicodendron diversilobum</i>	<i>Leaf</i>
Trailing Blackberry	<i>Rubus ursinus</i>	<i>Leaf</i>
English Ivy	<i>Hedera helix</i>	<i>Entire plant</i>
Himalayan Blackberry	<i>Rubus discolor</i>	<i>Leaf</i>
Horsetail	<i>Equisetum arvense</i>	<i>Entire plant</i>
