

Hypothesis:

~~An "educated guess"~~

A prediction (what will the answer to your question be) and a research-based reason for your prediction.

- Needs to include an in-text cit.
- Source should be included in your list of references.

WTRB moisture of soil &
of flowers on HBB

Hypothesis:

I predict that soil with less moisture will
be associated with more HBB flowers,
prediction

because in dry weather, dandelions make more flower
research-based
reason
(Peterson 2004).

↑ in text citation

1. Find one web site that helps you think of a prediction
2. Write your hypothesis in your introduction (correctly cite in-text & in list of references)
3. E-mail your completed introduction with the subject "per 6 your name intro FD" by 1:00 pm today
