

Noyes Property Methods Rough Draft

Field Biology

For your completed Methods section, you need to send me two finished files: the step-by-step methods, correctly cited and with a list of references (Methods Checkpoint #2) and your blank data sheet (Data Sheets for Noyes Property).

Make sure both of these files meet ALL of the criteria set out in the listed documents.

Attach BOTH of these files to the same e-mail and send it to dan.bregar@corvallis.k12.or.us. The subject line for your e-mail should be “per. *X your name* methods RD”
