

1. What is incomplete dominance? Write the definition AND give an example.

2. What is co-dominance? Is it the same as incomplete dominance? If not, how are they different?

3. Find TWO real-world (ex: crossing a red flower with a white and giving pink babies is NOT what I want, nor is “having a parent with blue eyes and a parent with yellow eyes having a green-eyed baby”) I want examples IN SOCIETY, maybe how people USE incomplete dominance to their benefit, etc.

b. Write one paragraph for each example (3-4 sentences).
