

## What is soil acidity?

<http://extension.oregonstate.edu/gardening/think-plant-when-measuring-soil-ph-1>

<http://soilquality.org.au/factsheets/soil-acidity>

In groups of two:

Each of the partners pick one article to read

Read the article

Answer each question separately on a sheet of paper

Once both partners are done:

Discuss the readings with each other

Answer the questions again under the first set of answers

Answer them this time using the information your partner told you

Questions:

1. What was the main theme of the article?
2. How is soil acidity measured?
3. How does soil acidity affect soil nutrients?
4. What makes soil acidity important?
