

Safety in the materials lab

- There are tests you need to pass with a 100%
- To use a machine you must
 - ① See a demo
 - ② Pass a test
 - ③ Know how to use it
 - ④ Have permission
- Wear safety glasses at
all times

- A teacher must be in the lab at all times
- Machines must be stopped before you make an adjustment
- Make sure power switch is off before plugging equipment in
- Don't walk away from a machine that is still moving

- Focus your attention on the machine and your work - not other people
- Tell Mr. Bregar or Mr. Kirsch if there are problems with any machine
- You will be held responsible for Vandalism
- Report any injuries/accidents to Mr. Bregar or Mr. Kirsch immediately

- Use tools carefully and for their intended purpose
- Be safe and mature
- Be careful with hair, clothing, and jewelry
- When done with equipment, put it away and clean up
