of woodrat nest?
thing #2

- Questions will need to address two factors about which you are knowledgeable.
- Data must be possible to collect during Mar.-Apr.
- We are limited to tools & equipment at CV
- Factors you study must be safe & appropriate
- You will research your topics, design an investigation, collect data, analyze data, & summarize your work with a poster, a paper, and a presentation.

ASH SWALE: (Willamette valley)

- What plants? (10!)
 - What animals? (10!)
 - What soil?
 - What is hydrology like?
- ↳ how does water move around?

"Finley Wildlife
Refuge"

"Ash swale", "forested wetland", "Jackson-Frazier wetland"

"native plants", "non-native plants", "invasive"

"Willamette valley", "Benton County", "Corvallis"
