

1. Define each of the following terms and explain the differences between terms in the same row:

<i>Atom</i> blah blah blah blah blah like one lego	<i>Molecule</i> blee blee blee blee blee like 2+ legos stuck together	Difference: molecules are <u>made from</u> atoms
<i>Covalent Bond</i>  like sticking legos together using 2 dots	<i>Ionic Bond</i> like magnetic legos - stuck together because opposite in charge 	<del>Difference:</del> molecules are made from covalent bonds
<i>Molecule</i>	<i>Compound</i>	Difference:
