

- ① TEST: Wednesday (Newton's Laws/Forces)
- ② THIS WEEK: RGM measurements
RGM calculations
RGM reflection
- } DUE FRIDAY
-

Measurements:

- A moving object on your RGM
- You'll measure how far it moves in centimeters (cm)
- The amount of time the object moves (seconds)
- The mass of the object in grams

Data Table:

Trial	Displacement (cm)	Time (s)	Mass (g)
1	might be different ↓	different ↓	# ↓ Same ↓
