## Course Description and Goals

Algebra 1 is a math class that focuses on the use of variables, variable expressions, and the way in which those tools can be used to solve mathematical problems. Students should have a 4-function calculator, a math notebook or spiral, and should bring paper and pencil to class each day. The book for this class is “Algebra I” (McDougal/ Littell).

## Instructional Activities

Students should expect to spend time exploring the content through lectures, activities, readings, individual and group projects.

## Assessment Procedures

Students will be assessed through their classwork, project work, homework, quizzes, and tests.

## Grading Policy

Progress reports will be sent home every 9 weeks. Grades will be given each quarter. Grades will be calculated as a straight percentage of your work; letter grades are determined by a standard 90/80/70/60 scale. The option of taking Algebra 1 Pass/No Pass is available; however, this choice must be made with your instructor’s permission within the first three weeks of the quarter. As with all math classes, Skills Tests will also be given.

Skills Tests are tests that do NOT count towards a student’s grade; however, success in these skills test is required for a student to pass Algebra 1 and move to Geometry. These tests assess **basic** skills, so students must demonstrate these skills at a high level of proficiency (90% or better). Students may retake the tests as many times as they wish, but only once per day per test. The highest score will always be retained. Any students who do not eventually get a score of 90% or better will not be eligible to pass the course. There will occasionally be time in class to retake skills tests. I am also available during my prep periods (1<sup>st</sup> and 4<sup>th</sup> periods). I am also usually available during lunch to help students and will be available after school by appointment. In certain situations, a student could also come in and take a skills test during my other class periods.

## Credit Denial Policy

Attendance and class participation are important parts of learning. Course credit denial is a possibility if students do not attend class. Credit denial in this course may occur when a student has accumulated ten (10) unexcused absences and their grade has fallen below a 60%. Students and their parents/guardians will be informed in writing of the possibility of credit denial when a student has accumulated nine (9) unexcused absences. Credit denial decisions will not be based on absences due to religious reasons, a student’s disability, or an excused absence, as determined

by district policy. Students who are failing a class at the time of credit denial will have an “F” entered on their transcript. No credit will be awarded for the course.

Corvallis School District Policy IKAD

### **Plagiarism Policy**

The Plagiarism Policy for Crescent Valley High School will be followed in this course. Please see the student planner for details of this policy.

### **Tardy Policy**

All students are expected to be in the room and in their seats by the time class starts or they will be marked tardy. Students who accumulate three or more tardies may be given a detention.

### **Attendance Policy**

Absences should be kept to a minimum. It is very difficult to keep up with the content covered in this course without being present. Chronic attendance issues will result in an attendance contract. All absences must be excused through the attendance office by a parent or guardian within 48 hours. After that, your absence is considered unexcused. Make-up work will not be accepted for unexcused absences. Make-up tests will not be administered to students for unexcused absences.

*Excused Absences:* Work that is late due to an excused absence will not be penalized but should be made up immediately upon return. For each day that you are absent, you will get one extra day to turn in your missed work. If you miss a test due to an excused absence, you should plan to take the test within one day of your return. Please schedule the time of make-up tests or labs with the instructor.

### **Late Work Policy**

Work that is turned in within 24 hours after an assignment’s due date will be accepted but graded with a 30% deduction. Students will be given no credit for work turned in after this period of time. Students with excused absences will be granted one day for each day absent to submit work. Extensions may be made to this policy when reasonable; please arrange any extensions prior to the due date of the assignment. Tests missed due to an excused absence must be made up within 48 hours of the student’s return.

### **Personal Electronics Policy**

Personal electronic devices (i.e. cell phones, mp3 players, gaming devices, etc) may be allowed in the classroom when the instructor considers it to be appropriate. Unless specifically told it is OK to use these devices, students should keep them put away. For students who have devices that are out and/or in use, the Personal Electronics Policy for Crescent Valley High School will be followed in this course. Please see the student planner for details of this policy.

### **Classroom Behavior Expectations**

I expect students in Algebra 1 to manage their behavior and conduct themselves as adults. Students who disrupt the learning environment will be placed on a behavior contract and/or removed from class.

Students are expected to stay in the classroom during the instructional period. Extended departures can affect your grade in the class. Extended leaves (beyond 5 minutes) will result in

an unexcused absence for the block. Students are not allowed to eat or drink near laptops or computers or in the lab area of room F-18.

### Career Related Learning Standards Addressed in this Course

- ✓ **Personal Management** – Exhibit appropriate work ethic and behaviors in school, community, and/or workplace.
  - ✓ **Problem Solving** – Apply decision-making and problem solving techniques in school, community, and/or the workplace.
  - ✓ **Communication** – Demonstrate effective communication skills to give and receive information in school, community, and/or workplace.
  - ✓ **Teamwork** – Demonstrate effective teamwork in school, community, and/or workplace.
  - ✓ **Employment Foundations** – Demonstrate academic, technical, and organizational knowledge and skills required for successful employment.
