

SOIL ECOLOGY

- Soil texture
 - Soil moisture
 - Soil nutrients
- } critical components for plants & animals living in soil
- important for plants & animals as well

Soil nutrient cycle that
→ connects soil organisms with
soil nutrients

What happens
to Nitrogen
(N) — a
critical nutrient

Friday:

- We'll collect soil
- Set up extraction apparatus

Monday:

- Look at organisms

• we'll investigate
connections
between all the
properties of
soil
