

Warm-Up (10/14/09):

On one half-sheet of paper, answer the following questions (5 min):

1. What do you think the term "ecological monitoring" means? *Collecting information about the environment over time.*

2. What do you think the term "stewardship" means? *Taking care of a place*

Noyes
Property

→ The mounds of sticks
are dusky-footed
woodrat nests! This
is a "species of concern"
- please do not disturb
the nests

concrete
pad

- Stay @ 20 feet
away if possible

- Work in groups of 2-3
- locate grid point flags
- list all the plant species you recognize in a 1 meter (3 foot) radius from the flag.
- enter your plant data in Excel and send to Bregar
