

## **2/11/15 Printing from Solidworks Reminders**

Load the CVHS Inch Template.

Use the 11x8.5 sheet tab.

Have all three views and the Isometric (3D) View

Change the sheet border info to reflect your name, the scale, etc...

Adjust the scale so that your views are as large as you can make them

Add some notes using the NOTE command under the Annotation Tab that explains how your device works.

Provide a couple of dimensions that show the overall sizes of your RGM.

Print on the HP4050

**WHEN YOU PRINT, PRINT ONLY THE FIRST PAGE!!!!**
