

TODAY: Last day to work on
Inflatable Structure in
class (DUE: Fri 11/14/14)

Surface Area Calculations:

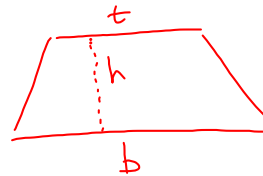

$$A = l \times w$$

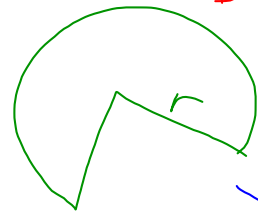

$$A = \frac{1}{2} b \times h$$

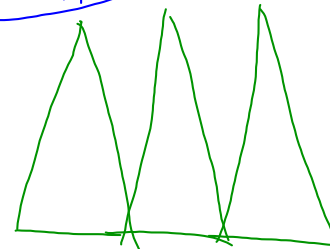

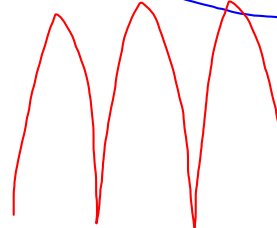

$$A = 3.14 \times r^2$$

$$A = \left(\frac{t + b}{2} \right) \times h$$

$$A = (3.14 \times r^2) \cdot \text{fraction}$$
