

Using your observations (from field trip)
and/or your personal experiences

CONNECT the science topics in
this class to deviles in your
life that demonstrate those ideas

Your goal is to either:

- ① Write a verbal description of how the device relates to the concept (detailed, scientific)
- or ② Write a story problem involving the device that illustrates the concept
(the device → airplane)

illustrate with words or math

9 separate problems
or descriptions

Force
(1st, 2nd & 3rd laws)

velocity, acceleration, Newton's Laws, momentum,
conservation of momentum, work, power
