

Osmosis:

Diffusion of water through
a semi-permeable membrane.

HYPOTONIC

vinegar

← osmosis - water moved
into the egg

HYPERTONIC

osmosis - H_2O moves into cell

Hypotonic: Describes a solution that has more water than a cell

osmosis - H_2O moves out of cell

Hypertonic: Describes a solution that has less water than the cell

no osmosis

Isotonic: Describes a solution that has the same amount of water as the cell
